

**Naviguez,
on s'occupe du reste !**

bandofboats.com is a unique new online community platform offering a comprehensive range of services for people who love sailing. Whatever your pleasure, whatever your budget, now sailing is accessible for everyone.

Find your dream boat

Relaxing, fishing, water sports, total comfort... Band of Boats provides a wide-ranging and simple solution for finding your dream boat, based on your preferences and your budget, together with lots of advice from owners.

Buy or sell your boat

Thousands of multi-brand new and used boats are available for sale online. Professional dealers and private owners can post ads to sell their boats free of charge. Custom-tailored services are also provided to make life simple for everyone:

- Integrated financing: search for boats based on monthly payments.
- Secure payment: taking the stress out of the process of transfer of ownership, making it a moment of shared passion instead.
- "Smart Value": whether you are buying or selling, find out the market value of the boat in an instant.
- Shipping cost simulators: simple tools to assess the logistics costs and price competitiveness of boats sailing in distant waters.

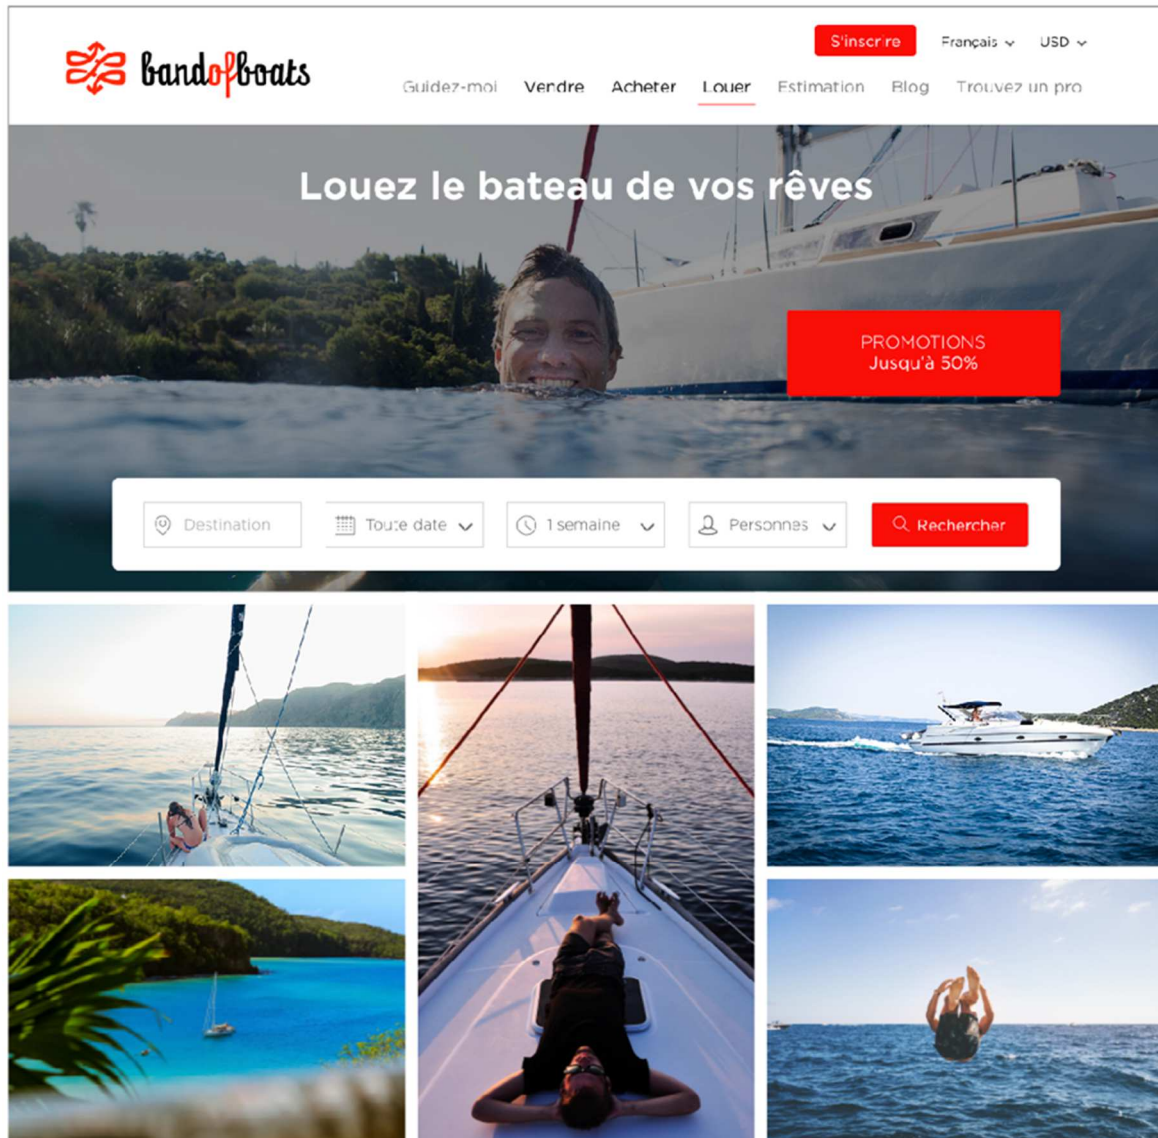

Weekly or weekend boat charters

Over 16,000 boats are available for charter and ready to raise anchor worldwide: Croatia, Greece, Italy, Spain, Martinique, British Virgin Islands, and, of course, France, with boats in the Mediterranean and the Atlantic coast.

Share your experiences and recommendations with others online, get advice from the Band of Boats consultants: you'll find all the help you need to choose your destination and your boat before simply booking online.

Launching now in France, coming soon to the whole of Europe

Band of Boats is now being launched in France, prior to our Europe-wide deployment in the spring, with a view to becoming the first port of call for boat lovers. The platform will continue to expand the range of services provided, backed by Groupe Beneteau, world leader in the boat industry and European leader in leisure homes.
